PORTFOLIO • GITHUB

Creative Designer and Front-End Developer with 4+ years of experience delivering responsive websites, e-commerce platforms, and brand-consistent digital experiences across React, TypeScript, WordPress, and Laravel. Proven ability to bridge design and development — from Figma prototypes to production-ready code — while managing multiple client projects simultaneously. Skilled in technical SEO, email campaigns, and social media content with a track record of measurable performance improvements.

EXPERIENCE

Web Designer - Full Time

Creativo FZCO | United Arab Emirates

October 2021 - Present

- Designed and developed 10+ responsive websites across React/TypeScript, WordPress, and Laravel/PHP, including custom e-commerce platforms and client-branded templates serving diverse industries
- Implemented technical SEO improvements — optimizing site structure, Core Web Vitals, and accessibility — contributing to measurable gains in page speed scores and organic discoverability
- Integrated Google Analytics and performance monitoring to track user behavior and deliver data-informed reporting to clients
- Converted approved UI/UX designs into pixel-perfect, cross-browser-compatible HTML5, CSS3, and JavaScript, consistently meeting project deadlines
- Architected and maintained custom WordPress templates from scratch, enforcing brand guidelines and ensuring long-term maintainability via Git version control
- Produced graphics, social media visuals, and short-form video reels for 5+ client accounts, maintaining cohesive brand identity across platforms
- Built and deployed seasonal email campaigns and newsletters through AWeber, tracking open rates and delivering performance reports to clients
- Leveraged Cursor (AI-assisted coding) to accelerate development workflows and reduce iteration time on complex components
- Collaborated directly with clients and cross-functional team members, translating requirements into solutions through regular check-ins and iterative feedback cycles
